Fraser's Tested Dahlias Are Grown The World Over

1936

TO ALL OUR DAHLIA FRIENDS GREETINGS

IT is with great pleasure we present this our 16th annual catalog of Dahlias. We take this opportunity to thank you for your friendly patronage and confidence. We can assure you that our utmost endeavor will be to retain this goodwill.

You will find in this catalog a selection of the best varieties of dahlias grown and tested in our own gardens so that we can with confidence recommend them to you at reasonable prices. In our descriptions and terms we have tried to make them as simple, accurate, and candid as possible, using the originator's description on the 1936 novelties.

Mr. M. J. Reynolds, Reynolds' Dahlia Gardens, Rochester, Mich., represents us in the Mid-west where our newer novelties can be seen growing previous to their being introduced. We represent Mr. Reynolds in the East. Visitors are always welcome at our gardens.

With best wishes for your success with dahlias.

GEORGE W. FRASER.

Fraser's Tested Dahlias for 1936

REX—I. Dec. (Greci-Fraser) A combination of buff and light golden yellow, suffused with peach pink and golden sheen. The long petals face outwards making a very artistic bloom 10-12 inches in diameter, 5-7 inches deep on strong stems; clean dark green foliage that seems to be free from insects and disease. Early frosts prevented our exhibiting this variety last fall, but several outstanding dahlia critics who saw it growing in our gardens proclaimed it one of the best novelties of the year.

Roots \$15.00; Plants \$7.50

JESSIE CRAWFORD—I. Dec. Color ivory white with blendings of cattleya pink, the tips of the petals deep cattleya rose like the throat of a cattleya orchid. The large flowers are carried on long stems well above the foliage; free flowering; clean uniform growth; height 4½ feet. Mentioned in both the American Home and Home and Field honor rolls of outstanding novelties.

Roots \$5.00; Plants \$2.50

HELEN S. FRASER — F. Dec. The color according to Ridgeway's Chart: "Picric yellow center, outer petals alizarine pink"; clean, upright growth with the flowers carried well above the foliage on stiff stems. Size of the blooms 5-8 inches. Certificate of Merit, Storrs, Conn., 1934.

Roots \$5.00; Plants \$2.50

BARBARA ANN—I. Dec. (Reynolds Fraser). We have had the pleasure of growing many bi-color dahlias in our gardens, but never have we had such a fine variety as this. The flowers are all so uniform in size and marking and every plant crowded with bloom making it an outstanding attraction. Deep rose red with white tips; 6-7 inches in diameter, 4-5 inches deep without any disbudding.

Plants only \$2.50

NOVELTIES FROM OTHER GROWERS FROM RUSCHMOHR GARDENS

RUDOLPH'S GIANT—Originator, Rudolph. Informal decorative. Color, bright buff apricot. One of biggest and best autumn Dahlias to date. With usual disbudding, no over-feeding. Every bloom we cut was at least 12 inches. Medium height bush, good habits, stiff stems. Certificate Storrs, 1934.

Plants only \$7.50; 3 for \$20.00

RED JUG—Originator, Dr. Preas. Semi-Cactus. Cardinal red. Petals curled tight at ends and tipped yellow. Won American Home Medal, West Virginia. Fairmont. Best seedling, Rockville Centre, Valley Stream, Camden. Won longest distance shipped seedling, Cleveland. Certificate of Merit Storrs 1935. Stems long, stiff; foliage leathery. Bush six feet tall.

Roots \$10.00 net; Plants \$5.00

ORCHID MOONLIGHT—Originator, Greenough. Formal decorative. Mauve pink. Excellent grower. Insect resistant. Stiff stems. Won at New York and Rockville Centre 1935. Certificate of Merit Storrs 1934.

Roots \$10.00; Plants \$5.00

BONNIE BELMONT—Originator, Cochran. Semi-Cactus. Bright yellow, beautiful shade. Long stiff stem. Have grown it three years to get stock. Has been commented on by visitors at garden. Won best undisseminated Rockville Centre 1934.

Roots \$10.00; Plants \$5.00

DOROTHY BRANT MILLER—Originator, Stephenson. Miniature. Shell pink like Little Jewel only much earlier. Abundance of blooms from July on. Fine as cut flower or border planting. It's a beauty. Roots \$2; Plants \$1

FROM DAHLIADEL

TWINKLE—Dadliadel 85) The sensational orchid flowering variety that stopped the crowds and caused more favorable comment than any other novelty at the shows. The blooms are about four inches in diameter and not only perfect in form and graceful, but a beautiful combination of white suffused violet rose with distinct tyrian rose markings on the reverse of petals which roll forward and show on the face of the flower. Very striking in color effect for arrangements and useful as the flower has a light airy appearance both in color and form. Bush is 2½ feet making it desirable in border planting. Plant \$1.00

MRS. HERBERT O'CONNOR (Berwick-Dahliadel 86). The exceptional qualities, especially for an Incurved Cactus Dahlia are long slender, yet erect stems, good size, 9 x 5 inches and an unusually bright color, which is soft rose pink deepening at center. Dark healthy open foliage and a profuse and continuous bloomer, bush 5½ feet. One of the best Incurved Cactus introductions in recent years. Roots \$10.00; Plants \$5.00

FROM HILLSIDE FARM

MARGRACE—(Bissell) One of the outstanding dahlias last year. Two certificates of Merit; several prizes in various shows; on four Honor Rolls. Color, brilliant scarlet, tipped and striped with gold; good grower. Plants \$5.00
